

# FAO: Leaders, CEOs, MDs, Div. Heads, Entrepreneurs, Owners, SME Founders

*Does being 'time-poor' leave you struggling to communicate?  
Do you share your Leadership experience to benefit colleagues?  
Or wish you had more time to get your key messages across?*

Here's a **high-value, low-cost** and **time-effective** solution: A rare opportunity to share your **Reflections on Leadership** with internal or external audiences, or both.

**Experienced professional broadcaster & respected business expert CHRIS GRIMES invites you to be a guest on his hit PODCAST 'Leadership Reflections', part of 'The Good Listening To Show'.**

In your 45-minute, uniquely formatted conversation, you'll be invited to tell Chris your story in a way that's more human and authentic, and less transactional than a scripted, in-house corporate message. Chris coaches many top blue-chip companies (*see logos below*). Safe in his hands, you'll create a memorable and valuable recording you can use all year as you:

- **share** your podcast with stakeholders, board members, in-house teams, at your AGM
- **talk about your Leadership style**, lessons you've learned and your future plans
- **bid a fond farewell** to colleagues as you retire, or greet staff as you start a new senior role
- **inspire the next generation of Leaders** by sharing some of your wisdom and experience

**GO PUBLIC** On LinkedIn/Facebook, podcast platforms, Vimeo, social media to reach UK & overseas audiences on Chris's **UK Health Radio** show, total **nearly 2 million viewers/listeners in 54 countries**

**STAY PRIVATE** Receive the professionally edited master recording of your interview to edit as you wish, for conferences, staff, shareholder & investor briefings, or to record your legacy for posterity
